## Use of Electric Mobility Vehicles

The safety of our residents and guests is of utmost importance. The following is a summary of the requirements and rules for use of electric mobility vehicles on the Community's Campus. The Community's Electric Mobility Vehicles Policy governs use of electric mobility vehicles.

Registration of your electric mobility vehicle is required, as well as your acknowledgment of this form. This may be completed at the [Wellness Center].

### General Rules

Speed: No faster than a regular pace of walking.

Pedestrians: People walking always have the right way.

Elevator use: Alert those around you when you are entering or exiting the elevator. Do not use the elevator if there are people on it.

Parking: Do not park in the hallways to avoid a fire/safety hazard.

Outdoor Use: Use sidewalks and avoid driving directly behind parked vehicles.

Use by Others: Is prohibited.

Reporting Requirements: Immediately report any incidents, damages or injuries to the Executive Director or supervisor-in-charge.

Financial Responsibility: Resident is financially responsible for any damages caused to self, other residents, employees, guests or property, including doors, walls, furniture, flooring and other property. The Community will bill the resident for the costs associated with such damages.

Termination of Use: The Executive Director or designee has the right to suspend or terminate the use of an electric mobility vehicle if deemed a direct threat to the health and safety of the resident or others or an incident has occurred (including physical damage to property).

I hereby acknowledge that I will comply with the General Rules stated above, and I have received a copy of the Electric Mobility Vehicles Policy.
